Hungarian, based in Bangkok

SKILLS

Frontend

React Next.js Angular Vue.js TypeScript

Backend

Node.js NestJS Go Python PHP

Database

PostgreSQL MySQL Redis MongoDB

Cloud & DevOps

AWS GCP Kubernetes Docker CI/CD

Game Dev

Unreal Engine 5 C++ Unity C#

AI

Claude API OpenAI MCP Servers

LANGUAGES

English - Fluent
Hungarian - Native
German - Basic

ABOUT

Full-stack engineer with 15+ years building web applications, SaaS platforms, game infrastructure, and cloud systems. Founded startups, shipped products on Steam, built platforms that were acquired. Strong work ethic. I take ownership, ship fast, and get things done. AI-native developer using Claude Code daily.

EXPERIENCE

VP of Engineering / Solo Developer

Nov 2020 - Present

[3PLGuys](#) | Remote (Los Angeles)

- Built entire freight logistics SaaS platform single-handedly from scratch
- Developed public REST API with full documentation and MCP server for AI integration
- Implemented 50+ carrier API integrations (UPS, FedEx, DHL, LTL carriers)
- Built AI features: LLM-powered carrier matching, document parsing, chat support
- Deployed Kubernetes on AWS with CI/CD, monitoring, auto-scaling
- Handled marketing: SEO, content, landing pages, lead generation

1M+	100+	50+	99.9%
MONTHLY VISITORS	ENTERPRISE CLIENTS	API INTEGRATIONS	UPTIME

React, Angular, TypeScript, NestJS, MariaDB, Redis, Kubernetes, AWS, Claude API

Co-Founder / Lead Engineer

Jan 2018 - Feb 2020

[Zeuz.io + G-Portal \(Acquired by Improbable\)](#) | Munich, Germany

- Built Zeuz game server platform in conjunction with G-Portal (Europe's largest game host)
- Hybrid-cloud orchestration across AWS, GCP, bare metal; SDKs in Node, Go, Java, PHP, C++
- Powered World War 3 server infrastructure; scaled to \$200K/mo revenue in 3 months

€2.5M	\$200K/mo	EXIT
FUNDING	REVENUE	ACQUIRED

Go, TypeScript, React, Kubernetes, Docker, AWS, GCP, Redis, PostgreSQL

Lead Developer (Contract)

Jan 2023 - Present

[KidneyCare Dialysis](#) | Remote (California)

- Built HIPAA-compliant healthcare SaaS from scratch in 2 months
- Employee scheduling, payroll automation, patient workflows, multi-center admin

React, TypeScript, NestJS, MariaDB, Kubernetes

Engineering Lead

Feb 2022 - Dec 2023

[Bubbadutch Studios](#) | Remote

- Led Golden Tides (4v4 MOBA): core C++ game systems, Go backend APIs, UE5 training

C++, Unreal Engine 5, Go, TypeScript, AWS

Founder in Residence

Dec 2019 - Nov 2020

[Antler & Entrepreneur First](#) | Singapore

- Built MVPs and technical prototypes for startup validation in global VC programs

Founder

Feb 2016 - Present

[Virtual Reality Central](#) | Budapest, Hungary

- VR game studio; shipped VR Retreat on Steam solo; secured \$340K funding

Unity, C#, Unreal Engine, SteamVR

SHIPPED GAMES

World War 3 AAA Multiplayer FPS Server Infrastructure	Golden Tides 4v4 Adventure MOBA Core Systems & APIs	VR Retreat VR Meditation Solo Developer
